"People can also be whoever they want to be on the platform, and this authenticity is an important part of their self-expression, be it in real life or in the Metaverse." He points to the recent Gucci Garden event, which saw a virtual bag eventually sell for around \$4,115. Its physical counterpart costs \$3,400. The bag cannot be transferred out of Roblox, suggesting that some users place primacy on how their avatars look over being able to flaunt these items in the physical world.

I think of a metaverse as a collection of virtual worlds, landscapes, and characters that you can experience in one shared space. One example is Fortnite, which lets players dress up as characters from a huge range of popular franchises across movies, other video games, and even sports. Roblox has a huge range of virtual worlds that you can go to and games to play that can take place in any kind of environment that a developer can imagine.

There are, however, a few easy things you can do to minimise the risk. First off, as mentioned above, don't tell your kid the password to their Roblox account. The reason behind this is the 'free Robux' scams that proliferate the internet. If you do this you have just given the scammers all of the information they need to take over the account and clear it out. No matter how tempting these sites are you need to know that there is NO SUCH THING AS FREE ROBUX. Only purchase Robux using the methods mentioned before.

During a recent developer Q&A, Splitgate developers announced that they are working on an update that will bring Splitgate to Xbox Series X/S and PlayStation 5. We don't know much else at this point, and there is no release window announced, but we expect the Splitgate upgrade will have a smoother framerate than the Splitgate PS4 and Xbox One versions have currently. 1047 Games also mentioned possibilities of versions on Switch, Mac, and mobile, but the studio hasn't begun any work for such versions yet.
